

# **HOUSEHOLD HAZARDOUS WASTE**

## **Best Practices for Disposal of Household Hazardous Waste Materials:**

1. Use all of the HHW materials for their intended purpose.
2. Store material(s) safely until HHW Collection is scheduled in the area.
3. Transport HHW materials to a State of Illinois Long Term Collection Facility. Sites are located in Naperville, Rockford, Gurney and City of Chicago. Contact IL-EPA at 217-782-6761 for information on location and hours of service of these collection facilities.
4. Hire a Hazardous Waste disposal service (very expensive).
5. If you are moving or need the premises vacated in a short time, check with a relative, friend or neighbor about storing the materials until a HHW Collection is scheduled in the area.
